

Lambertville Green Business Certification

Local businesses now have the opportunity to show their community and customers that they care about sustainability. With the increasing demand for green products and services this is an opportunity for businesses to stand out.

How Does the Certification Program Work?

The Lambertville Green Business Certification Program utilizes the application for the New Jersey Sustainable Business Registry (registry.njsbdc.com).

Applying for Certification

The application utilizes the New Jersey Sustainable Business Registry application, which requests information about the sustainability practices of your business and is applicable for any industry:

- 5 practices that have improved the business sustainability
- 1 cost saving benefit
- 1 measurable benefit

Upon approval, the application is posted publicly online at registry.njsbdc.com/registered-businesses, enabling accountability and transparency.

City of Lambertville Environmental Commission

Lambertville EnvironmentalCommission

Recognition

With a single application businesses will be recognized by both the New Jersey Sustainable Business Registry and Lambertville Green Business Certification.

How do I apply?

- Start by registering on the New Jersey Sustainable Business Registry website registry.njsbdc.com/user/register.
- Complete and submit your application.
- Notify the Lambertville Environmental Commission of your application for the fastest approval by emailing a copy of your application to environmentalcommission@lambertvillenj.org.
