Marnie Carrick from Hunterdon County Council For Young Children introduced herself and her group. The group is interested in improving the education of the arts in the community for children 5 and under. The group wants to have a voice in community planning and also be a liaison between Lambertville and the state of New Jersey for resources.

There was a presentation of the plaques and the wording to be placed in Cavillo Park. They were approved with minor changes to the board members of P&R's first names.
